

Investment lineup changes

As a reminder, on or about Apr. 16, 2025, you will be enrolled in a new Retirement Choice Plus (RCP) account (if you don't already have one) for each Iowa State University and Ames National Laboratory plan that you currently contribute to or hold a mutual fund balance in at TIAA. Once you are enrolled, an Iowa State RetireOnTrack moderate portfolio that aligns with your anticipated retirement age will be selected for you.

If you don't want to use the Iowa State RetireOnTrack model portfolios, you can build your own portfolio from the options in the new investment lineup. To choose your own investments, log in to your new account anytime on or after Apr. 16, 2025, to opt out of the model portfolio and select from the investment options available in your plans.

Several investment options are being replaced in the new investment lineup. The options noted in the previous lineup fund column below will no longer be available in the new lineup; however, similar or comparable options will be available in the new lineup.
